

Project: Wintergreen Resort (Employee Housing)

Location: Wintergreen, VA

Contractor: Turner Wicks

Project Manager: Rob Turner

Project Start: August 2006

Project Finish: January 2007

Project Detail:

Wintergreen Resort Employee Housing was built to house the ski resort staff during their ski season. It is a complex of three buildings that are three stories high.

Each building is comprised of seventeen living units, that are 1200 sq. ft. with three bedrooms and two baths. Each building also features a conference room. The exterior is hardy plank and stone veneer.

Project Highlights:

- 20ft. cathedral ceilings - common areas
- 3 story building, dormitory style
- Hardy siding
- Associate (employee housing)
